

MANY OUT OF WORK  
IN TEXTILE TRADES

In Some Cloak and Suit Factories,  
Too, 70 Per Cent. of Oper-  
ators Are Absent.

Much unemployment exists among the workers in the clothing and textile industries, according to the report of the Federal Reserve Bank for June. In some cloak and suit factories 70 per cent. of the operators are not at work. Inactivity is usual at this season of the year, but it is now exceptionally extensive.

During the last few years only 30 to 40 per cent. have been laid off during the dull season. Practically all the fur makers in New York City are on strike, and it is estimated that 10,000 are out.

In contrast to the preceding is the increased activity in the building trades. It is estimated that a month ago only about 75 per cent. of the men were working, but now the percentage has been increased to 98. There is a shortage of several hundred houseworkers.

There is a shortage of unskilled workers. The supply of immigrant labor is below the demand, and there is a shortage of farm labor.

According to the State Industrial Commission the average weekly earnings of factory workers in New York State were \$23.45 during May, an increase of 63 cents over the average for April and the highest reported so far. The most marked increases were in metal work, machinery, railroad repair shops, shipbuilding and furniture. The greatest decreases were in men's and women's clothing and in fur and fur goods. It is probable that part of the increases were due to the laying off of the less competent workers, whose lower earnings reduced the many woolen mills and silk mills average.

are shut down and others are running only part time.

WINSTED, Conn., July 1.—Tedford H. Cann, noted swimmer, who was seriously injured in an automobile accident in New York City a few weeks ago, has arrived at the Cann summer home, at Highland Lake, to spend the summer.

Surgeons on removing the cast last week found the bones were not knitting as fast as they had hoped, which means that the young athlete will not be able to take part in the Olympic games.
